Lunch & Visit Exhibits

**AAPPMM Annual Conference
Saturday, November 9, 2024**

1:00pm-2:00pm

How to Use Structure Sensor (iPad scanners) and Face ID 3D Scanning Technology For Custom Foot Orthotic, Custom Diabetic Insoles and Custom AFO's | 1.0 PMAC

Jason Kraus

Participants will learn in this interactive workshop: How to use each of these popular scanning solutions, how to capture the necessary anatomical requirements for each type of prescription, how to differentiate between “good” and “bad” scans and how to position patients for optimum results.

2:00pm-2:30pm

Padding, Cushioning, Strapping and Other Commonly Used OTC Devices in the Podiatric Office | 0.5 PMAC

Zahid Ladha, DPM

This interactive lecture will provide the attendee hands on insight into proper indication, applications and uses for various OTC devices commonly used in Podiatry.

2:30pm-3:00pm

Interactive Roundtable | 0.5 PMAC

Tressea Harvey, PMAC, CMOM-POD

This is a great opportunity to learn from other Assistants in the same profession. Be sure to bring all your ideas, thoughts and questions to the table and be prepared to kick back, relax, have some fun and learn new ideas to take back to your practice, physician(s) and your Team. We will all learn from one another and help each other excel and succeed within our profession.

3:00pm-3:15pm

Break

3:15pm-4:15pm

Hygiène and Environnemental Management | 1.0 PMAC

Rachel Martinez

This workshop will explore the importance of maintaining a healthy environment and how it contributes to a comprehensive foot care plan. We will explore treatment options and the positive clinical impact of establishing an effective cleansing routine to treat and prevent acute and chronic skin conditions.
