Lymphedema, Wounds, and Balance (Oh My!)

8:00am – 9:00am

Transforming Fall Prevention In the Podiatric Medical Practice: Life In Balance | 1.0 CECH

Jonathan Moore, DPM

Understand Life In Balance Technology: Explore the innovative and reimbursable Life In Balance Fall Risk Assessment tool and its role in comprehensive fall prevention. Master Practice Management for Fall Risk. Learn how to implement evidence-based fall risk management to grow your practice and improve patient outcomes. Discover the original Moore Balance Brace. Gain insights into the design, application, coding and compliance of the Moore Balance Brace in fall prevention. Maximize Reimbursement Opportunities. Understand how the Life In Balance system can create clear pathways to reimbursable treatments that enhance your practice's bottom line and change lives in the process.

9:00am – 9:30am

The "Do's and Dont's" of Wound Care Coding | 0.5 CECH

Natalie Domek, DPM

Wound Care can be the most important area of any podiatric practice if coded properly. Learn about what to consider in your coding and documentation when providing Wound Care services to your patients.

9:30am – 10:00am

Best Biomechanical Practices for Offloading Wounds | 0.5 CECH

Jason Kraus

Learn how functional orthoses (foot or ankle/foot) can mitigate excessive forces during gait. Learn what information is essential for the laboratory to produce the device that achieves your functional offloading objectives. How to get things "right" the first time and avoid frustrating adjustments and understand the iterative nature of wound protection and how best to communicate this to patients.

10:00am - 10:30am

Break & Visit Exhibits

10:30am - 11:30am

5 Things you May Not Know About Lymphedema and Medicare's New LTA Policy: Diagnosis, Testing and Practice Implementation | 1.0 CECH

Amy Kibler, CLT, LANA

The long overdue LTA policy was released this year. Is your practice ready to service patients with lymphedema and provide the care they deserve. Learn the latest in diagnosis, treatment and implementing a successful program to ensure your practice is up-to-date and in full compliance with the new policy. Learn the differences between Edema and Lymphedema, how to properly diagnose and
