Class A Findings - Non-traumatic amputation of foot or integral skeletal thereof

Class B Findings

- Absent posterior tibial pulse - Absent dorsalispedis pulse

- Advance trophic changes such as: (3 required) hair growth decreased nail changes (thickening) pigmentary changes (discoloration) skin texture (thick, shinny) skin color (rubor or redness)

Class C Findings

- Claudication

- Temperature changes (e.g., cold feet)

- Edema

- Paresthesias (abnormal spontaneous sensations in feet)

-Burning
